PROFILE SUMMARY

Dynamic technologist and data professional with over a decade of experience in the tech industry, leveraging technical and analytical expertise to deliver innovative solutions to business needs. Demonstrated success in managing operational and financial analytics projects, data integration, data modeling, reports & dashboard development, maintenance and optimization of BI reports. Strong problem solving, communication skills, attention to detail, and adeptness in working with complex systems.

SKILLS

Technical Skills

- Cloud and Data Platform: Power Platform, Dataverse, Microsoft Fabric, Microsoft SQL Server, SAP, Microsoft Entra ID
- Data Engineering & ETL: Data Modeling, Data Staging, Query Folding, Schema Implementation, Data Warehousing
- Data Analysis & Visualization: Excel, Power BI, Tableau, Pandas, Seaborn, Plotly, SSRS, Power BI Report Builder
- Optimization & Performance: DAX Studio, Bravo, Performance Analyzer
- Process Automation: Power Automate, Power Apps (Canvas and Model-Driven), Python, Office Scripts, Excel VBA
- Programming Languages: Python, DAX, Power Query M Language, SQL, R
- Other Platform: Microsoft Suite, SharePoint, ServiceNow, Microsoft Planner, Visual Studio, VS Code, Jupyter Notebooks

Soft Skills

- Project Management: Business Requirements Gathering, Project Planning, Stakeholder Management
- Problem-Solving: Diagnosed and resolved complex data discrepancies by implementing automated ETL processes using Power Query, SQL, and Pandas.
- Communication Skills: Over ten years of experience communicating with teams both in person and via email.
- Organization: Practiced naming conventions, foldering, and archiving older files in organizing files and data.

EMPLOYMENT HISTORY

Sept 2024 - Present	Python/Power BI Developer (Independent Contractor) D&E Air Conditioning Pty Ltd Victoria Australia (Remote) • Created and maintained automated dashboards and interactive visual reports using Power BI. • Developed data pipelines with Power BI Service to ensure seamless integration and data flow across platforms. • Managed and enhanced Power Apps solutions, streamlining business processes through app development and automation. • Designed and generated detailed reports for data-driven decision-making. • Provided ongoing support for Python workflows, troubleshooting and optimizing existing scripts to improve performance and functionality. • Optimized SQL queries to improve database performance and streamline data retrieval for reporting and analytics.
Feb 2023 – Dec 2024	DX Business Analyst – Finance Analytics Lexmark R&D Corp Cebu Philippines (Hybrid) • Build automated dashboards and visual interactive reports using Power BI. • Understand business requirements in the BI context and design data models to convert raw data to meaningful insights. • Understand operational objectives of business functions by gathering information, evaluating output requirements and formats. • Assist in the documentation of business used cases by constructing workflow charts, studying system capabilities and current practices, writing specifications, and designing modifications. • Interpret, evaluate, and interrelate research data and develop integrated business analysis for strategic decision-making purposes.
Aug 2015 – Jan 2023	Senior Board Repair Specialist Linksphere Technologies Corp Laguna Philippines • Analyze electronic circuits to identify faults and determine repair strategies. • Collect and analyze data related to board performance and failure rates. • Use Microsoft Excel to manage and analyze repair data. • Created a dashboard in Excel to track repair status, component usage, and failure analysis, which enhanced data visibility and facilitated informed decision-making in troubleshooting and resource allocation.

Jun 2012 – Aug 2015	Board Repair Specialist Teradyne Philippines Ltd Cebu Philippines - Responsible for supporting all engineering works necessary for improving the quality of Teradyne boards. - Do component failure analysis by decapping and dissecting electronic components and create a comprehensive report. - Work with the Test Engineer in process requirements, quality improvements, reliability issues, as well as meeting with engineering metrics.
---------------------	---

OTHER EXPERIENCE

Jan 2025 – Present	Power BI Developer (Part-Time) AvantGuard LLC Milford Connecticut USA (Remote) - Developed and optimized data models for Managed Service Provider related reports - Created interactive dashboards and reports to present insights and trends
Aug 2024 – Oct 2024	Power BI Developer (Contract) Moderno Plant X Houston Texas USA (Remote) - Configured Power BI Service and created Power BI dashboard to visualize OEE (Overall Equipment Effectiveness) metric, including generating embedded URL for integration with a web application. - Designed and implemented ETL processes using SQL and Power Query to transform and integrate data from multiple sources for analysis. - Developed and optimized data models to support efficient data visualization and reporting in Power BI. - Created interactive dashboards and reports to present insights and trends, ensuring clear and impactful data storytelling.
Mar 2024 – Apr 2024	Excel Training Instructor (Contract) Cebu Home & Builders Center Cebu Philippines (Onsite) Delivered comprehensive Excel training to the sales and marketing team, enhancing their data analysis, and reporting capabilities.
Dec 2021 – Mar 2022	Python Developer (Contract) Excigence Asia Inc Laguna Philippines - Designed a user-friendly GUI application using Tkinter for managing and executing test scripts in electronic testing. - Developed Python scripts for data analysis using Pandas to manipulate and analyze datasets. - Created compelling and informative data visualizations using Matplotlib to present findings and insights.

EDUCATION

BS in Industrial Technology Major in Electronics (Jun 2008 – Mar 2012)
 Cebu Technological University (Main Campus) – Cebu Philippines
 Coursework: Circuit Analysis, Programmable Logic Circuits, Digital Electronics, Shop Management

Google Business Intelligence Professional Certificate, Google on Coursera
 Coursework: Project Planning, Business Intelligence, Business Analysis, Dashboarding and Reporting

Google Data Analytics Professional Certificate, Google on Coursera
 Coursework: Data Analytics Fundamentals, R Programming, ETL

Data Associate Pathway, Project SPARTA PH
 Coursework: ETL, Data Analytics, Data Visualization, Data Management, Data Governance, Computing

MICROSOFT CERTIFICATIONS

PL-300 Microsoft Power BI Data Analyst

INTERESTS

Technology	Data Science and Analytics	Dashboards & UI
